IN THE SPECIFICATION

The Patent Office objects to the disclosure because it contains an embedded hyperlink and or other form of browser executable code. Applicants respectfully disagree as noted in section VII of MPEP § 608.01, a hyperlink or other form of browser executable code includes a URL placed between these symbols "< >" and "http://" followed by a URL address. However, the specification includes URL without the "< >" or the "http://" symbol and thus are not hyperlinks or browser executable codes such as that which would be interpreted as valid HTML code when retrieved in viewed via a web browser. Thus, Applicants respectfully requests the patent office withdraw the objection above to the specification.
